

Dear Prospective Volunteer,

Thank you for expressing interest in the work and mission of Peace and Hope Frontier Mission. This packet of information is designed to answer any questions you might have, as well as to tell you more about our volunteer opportunities in Nicaragua. We extend our warmest invitation for you to join us on a trip in the very near future!

As a Christian relief and development organization, Peace and Hope actively seeks individuals who will share our concern for the poor and the isolated. Guided by biblical principles and committed to strong moral values, we believe in holistic service that is both sustainable and empowering, ministering to both physical and spiritual needs of poor, isolated communities.

Over the past decade, the Lord has enabled us to minister through a vast array of initiatives, including such projects as the following: drilling wells; providing health training; supporting feeding programs for children; bringing relief to poor villages in the wake of natural disasters; installing solar power stations and rainwater collection systems; building bridges, rice mills, radio outposts, churches, "green" stoves, medical clinics and roads; delivering food, clothing, medical services, mosquito nets and Bibles; organizing Vacation Bible School programs.

And so, if you are looking for fresh challenges and grand adventures, we encourage you to further explore these opportunities to put Christian faith into action with Peace and Hope Frontier Mission!

We hope to hear from you very soon and will look forward to helping with any of your questions, comments or concerns.

Many thanks and God bless,

Peter Coleman
